TRUMP DECLARED A NATIONAL EMERGENCY IN 2018 WITH EXECUTIVE ORDER 13848 DEALING WITH FOREIGN INTERFERENCE WITH OUR ELECTION PROCESS
>I HEREBY DECLARE A NATIONAL EMERGENCY TO DEAL WITH THIS THREAT

A TRAP
5D CHESS
THEY GOT CAUGHT

>THERE'S A REASON TRUMP ISN'T WORRIED
>there's a reason powell, flynn, lin wood, etc all are calm and collected
>THE MOST IMPORTANT SPEECH TRUMP EVER MADE DEC 2nd (unironically)
>called for a full forensic audit
>lays out that he has a sworn oath to defend the United States Constitution against the wartime “siege” that’s under way
>then explains that the vote was criminally rigged with “fraud” (which is a crime) and that it’s now time to overturn the election results and correct them
>Under existing U.S. law, it’s a felony crime to try to rig votes. Under military law during a time of war, it’s treason (TREASON)
>under the 2018 13848 E.O each of the entities engaging in this behavior will have all their assets seized by the US Treasury
>Trump was planning the 2020 election sting cyber warfare “trap” in 2018
>the rigging in 2018 was tied to adam schiff needing the house to launch the phony impeachment scam
>Trump was able to prevent the House from reading NSPM #13 (dealing with CYBER OPERATIONS) for 17 months
>[USC02] 10 USC 394 gives Trump military authorities to perform clandestine military operations in cyberspace

>Trump put the cyber warfare infrastructure in place in 2018 that would allow them to unleash a domestic military response to arrest, detain and prosecute all those who were complicit in the attack on America
>The patriots, in other words, really are in charge and they planned it all since 2018, putting in place the framework to trigger the appropriate national security resources once the Democrats took the bait and tried to steal the 2020 election
>and note the 2018 EO applies to corporations, individuals, partnerships and even non-profits NGOs
>the report is due 18th DEC

I promise to you guys that within 72 hours, you will see a series of actions from President Trump – actions 1, 2, 3, and 4, believe it or not. Thundering actions — it's called thundering laws. In addition to that, I think – I mean I guess – that he has changed his mind from using years to take down the CCP, within his terms, to something like ASAP. It is as amazing as it is! In English, it means a shorter time, shorter time, shorter time. Do you believe me? Yesterday, when I was chatting with you guys, the world had changed fundamentally.

If you died today, where would you spend eternity?
https://www.youtube.com/watch?v=EwXlByJ4cjo

>"These things have I written unto you that believe on the name of the Son of God; that ye may know that ye have eternal life, and that ye may believe on the name of the Son of God." -- 1 John 5:13

>"And as it is appointed unto men once to die, but after this the judgment:" -- Hebrews 9:27

How will you fair on judgement day? Have you ever disobeyed God? Think of the ten commandments, have you ever told a lie?
Took something that's not yours? Lusted after a person who is not yours?
If you have ever sinned, God's punishment for you is the second death, or Hell.

>""For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord." -- Romans 6:23

God has passed the sentence of death to you, but he is offering his only begotten Son as a sacrifice. He is offering to give you a free gift of eternal life and forgiveness of your sins.

>"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." -- John 3:16
>"And it shall come to pass, that whosoever shall call on the name of the Lord shall be saved." -- Acts 2:21

If you want to accept God's gift of eternal life, offered to you for free, no works, no strings attached, then pray a prayer like this to God:

"Dear God, I acknowledge to you that I am a sinner, and I am sorry for my sins and the life that I have lived; I need your forgiveness.
I believe that your only begotten Son Jesus Christ shed His precious blood on the cross and died for my sins.
You said in the bible that if we confess the Lord our God and believe in our hearts that God raised Jesus from the dead, we shall be saved.
Right now I confess Jesus as my Lord. With my heart, I believe that God raised Jesus from the dead.
This very moment I accept Jesus Christ as my Savior and according to His Word, right now I am saved.
Amen."

from the last thread as regards to time frame of the 2nd 45 day period, from the EO
>The report shall also include updates and recommendations, when appropriate, regarding remedial actions to >be taken by the United States Government, other than the sanctions described in sections 2 and 3 of this >order.
So it's sounds like the first report is what happened and the 2nd report is what to do about it. But I'm sure they've known what happened from day 1 so here's to hoping they already have a plan about what they are going to do and it will happen quickly. It seems like letting it go many days after the states are certified would be counterproductive.

No, apparently there are 45 days after the 18th of December. Not sure how that works, or will work. But, this EO is pretty damning for anyone even remotely involved with anything that could remotely resemble election interference.

This EO should be the most concerning thing in the 2020 election, and it's been on the books for almost two years.

This election was a trap.

But the point remains, if you’re in the alleged circle, you needn’t care about such things—so why the fuck announce anything? Why not just do the thing? Let it play out? Why signal anything? Why create this thread even? We’ll find out soon enough, right?

Well then you're a retarded faggot nigger who can't read. The EO in no way makes the 18 the defacto deadline. The only deadline it makes is 90 days post election until a report is delivered to the President. It also doesn't stop the EO from being enforced on day one of the election.

The timeline is rather ambiguous, the meaning and repercussions not so much.

It is all falling apart for the gop.
You can already see it starting to fracture.
A house built on sand will not stand.
There will be a trump wing that will start to boycott elections and an old-line gop that will only have ten percent of the voters.
Dems will start to roll and get the U.S. Senate, the statehouses, and the governors' mansions.
Then they pack the federal courts.

orange man monster has super powers - the details are unbeknownst even to the most senior of congressional representatives. These powers are called P.E.A.T.S. to be used under conditions of national emergencies to suspend the various articles of the constitution (i.e., habeas corpus, elections, etc.) they will be executed by the president in response to the clear election interference from multiple foreign parties including but not limited to the following: China, Iran, and Venezuela. The Pentagon's internal intelligence agency called D.I.A. will shortly confirm foreign interference took place in the election allowing for the Trump Administration to execute powers with the full blown backing of the American military might -- SpecOps ///

Please go read this EO, then when you are done read it again, then go back and read the parts you didn't understand.

I was not even aware of this EO until a few days before the election. It basically lays out a complete plan to fuck anyone even remotely involved in US election interference. Including sanctions of foreign governments. Say what you want, but we've been under a state of emergency for almost two years now just based of off this EO and election interference.

I don't know how or when this plays out, but Trump issued a fuck you two years ago. That's basically what this boils down to.

Constitutional Law is eternal wartime law, sealed in the blood of our ancestors it is immutable. By violating constitutional law you commit a war crime. I cite federal code verbatim, war criminals are enemies of the state and as such they no longer enjoy the right to due process.

ATF are not american citizens. This progression in the heirarchy of authority of the law to constitutional law's hierarchy of supremacy is how the DOJ puts people in Guantonamo Bay: you are simply no longer an american once you violate constitutional law. the government uses these very real laws against you. it's time to start using the supreme and eternal law against them.

>there's a reason powell, flynn, lin wood, etc all are calm and collected
Every one of those people is missing a few screws. I mean, I'm not worried either, don't get me wrong; but those people are crazy people. Who knows what a crazy person's motive is. No one. That's who.
> Under military law during a time of war, it’s treason
You just made that up. How retarded do you have to be to think you'd get away with it? Everyone here has full internet access, sport. And more.
> under the 2018 13848 E.O each of the entities engaging in this behavior will have all their assets seized by the US Treasury
An EO can say whatever it wants, it doesn't mean its proper or enforceable. A president can't go around seizing others' property, whatever the reason. And that should be obvious to anyone with a 6th grade education.
> sentence after sentence of baseless speculation being passed off as fact.
Really?
Really?
Do you want to discover actual answers? Or do you get off on dreaming up ridiculous scenarios that can't possibly happen then bending what few facts you have to fit the story you want to tell?
Do you know how i and other informed people knew SCOTUS would dismiss the Texas case? We don't start our analysis with a conclusion.

I didn't know the DNC had trolls in europe, too. Who's paying you? Are you on a VPN? This isn't about Trump and you know it. It's much larger. It will impact the entire west if they can get some traction. But from what we've seen, it appears that Trump & Co. are playing by the old rules and that's why the swamp keeps pushing him out. Hopefully we see some real shit once they can officially say "We've exhausted every legal means for obtaining justice" leaving only the fourth box left to open. C'mon now examine more. There are millions of men waiting to go to fucking war over this. The left has set a deadly precedent, but don't mistake that for winning.

They have been sneaking them into Canada and possibly Mexico for months. Maybe years. There’s a few articles about the people seeing them. And don’t forget the secret treaty little potato signed to let China keep troops on Canada without telling locals. The “covid camps” make a lot more sense.
The “50,000 pla killed in Maine” is obviously bullshit and likley it meant to discredit the other reports.

Show me the language of the bill which grants exemptions to those in the Democrat party. I haven't seen it yet. Seems to me like you're just shitposting mate.

There's no hocus pocus to save you.
Pray for salvation and forgiveness, and act accordingly - empty words with no contrite spirit to match will mean nothing.
And the gall to tell Him in prayer yourself that you're saved from this moment, despite all Biblical advice to persevere to the end in order for that to remain so, is a terrible start.
Maybe reconsider that "once saved, saved forever" tripe. Didn't work so well for Judas.

The electoral college votes TOMORROW.

I realize a lot of you bought losing positions on bets that will get BTFO in 24 hours so you're going to chase every bit of hopium down the drain, but wake the fuck up you simple ass basic bitches.

By the 18th of DEC you're asking the country to support a president that has lost in every conceivable way.

"But muh Jan 6th!"
You idiots, on Jan 6th it is just a formality, they just count the votes in congress, to change things at that point would require an override from the DEMOCRAT house in coordination with a barely republican Senate. I doubt you even get a single formal objection from any Senator at all. After the GA runoff (Jan 5th) they won't give two shits about Trump or Maga again.

Muh watermarks
Muh recounts
Muh PA lawsuit
Muh Kraken
Muh Germany server firefight
Muh Faithless electors
Muh Military coup

Come on.
There won't be 50 faithless electors
There won't be a coup, and are you idiots really rooting for a military coup at this point?
